

FREE | Math Boot Camp

Who should take the course?

- Students who score below the minimum Accuplacer test score required for placement into MATH 090, Basic Mathematics Skills
- Students who need to brush up on basic math skills to retake the Accuplacer test
- Anyone in the community who wants to improve their math skills

MCCC is offering this non-credit Math Boot Camp for students and community members who need to review and improve upon their math skills. Basic arithmetic such as working with whole numbers and integers, fractions, decimals and percentages will be covered. Learning will further be enhanced through meaningful real-world applications and problem solving. These applications hopefully will be fun and relatable to real life.

We can help lessen your anxiety about math and build confidence in your abilities.

The last week of camp will be devoted to review and preparation for the Accuplacer test. In addition, you'll be exposed to STEM (Science, Engineering, Technology and Math) programs of study and majors along with STEM-related careers.

$$\frac{6}{8} = \frac{3}{4}$$

Classes meet Tuesday, Wednesday and Thursday for 5 weeks

Section I:	July 16 – August 15	9 – 10:30 a.m.
Section II:	July 16 – August 15	6 – 7:30 p.m.

Classes are FREE. However, you must pre-register. To register, please contact the Office of Lifelong Learning at 734.384.4127 or visit us in Room 286 in the La-Z-Boy Center.
