Jeff Peters, Coordinator of e-Learning and Instructional Support
(734) 384-4129 / jdpeters@monroeccc.edu

Jennifer Yarger, Instructional Support Technician
(734) 384-4328 / jyarger@monroeccc.edu

All MCCC Faculty Have Access To Bb Content System
Since MCCC upgraded to the Blackboard Enterprise Suite all faculty can utilize the content system, regardless of whether or not they teach using Blackboard. The benefit of the content system is that you can store electronic files in a secure area on the web and access those documents from home, the classroom, or wherever you have a computer and access to the internet. If you’re interested in using the Blackboard Content System but have never logged into Blackboard, visit this link https://bb.monroeccc.edu and click on the “Employee Support” tab at the top for login instructions. For more information on using the content system, click here or contact Jeff Peters at ext. 4129.

Digital Dropbox Eliminated From Blackboard 9.0
For those faculty currently using the Blackboard digital drop-box tool, be aware that Blackboard recently announced that the digital drop-box will not be included in version 9.0 (MCCC currently uses Blackboard version 8.0). According to Blackboard, the drop-box tool was removed because “The more robust Assignments tool and the Group File Exchange meets the needs of individual users and groups for completing and managing course work”. For more information on Blackboard 9.0 please click here.

If you have any questions regarding this information or would like to learn about alternatives to the digital drop-box, contact Jeff Peters at (734) 384-4129 or via email at jdpeters@monroeccc.edu.
