

MCCC Sports Interest Survey Results 2015

Jamie DeLeeuw, Ph.D.

Objective: Monroe County high school students were surveyed at the request of the MCCC Board of Trustees to better understand high school students' interest in a sports program at MCCC.

Method: Principals within the Monroe County Intermediate School District (MCISD) were emailed the Sports Interest Survey link on Survey Monkey and asked to distribute it to students. The survey was anonymous, and several reminders were sent. Athletic directors were also contacted and asked to distribute the link within classes that all students generally take. Responses were collected between December 11, 2014 and February 12, 2015. All non-student responses were excluded.

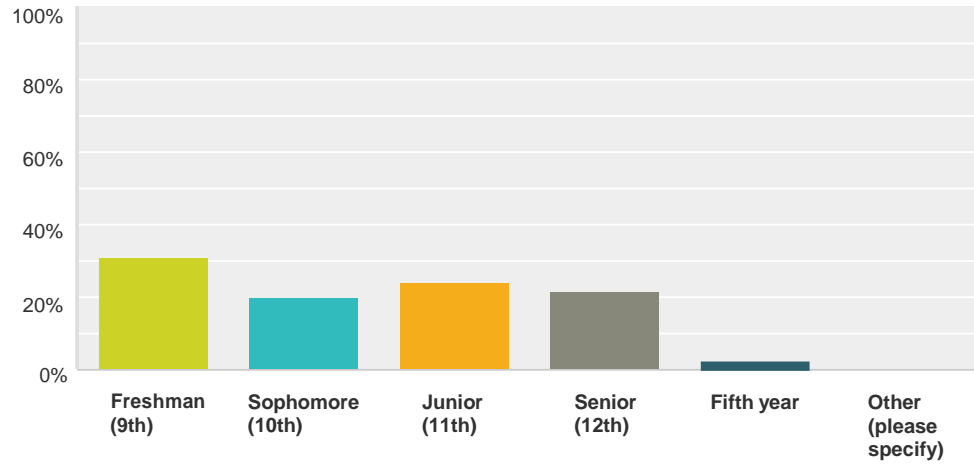

Results: The majority of participants were from Summerfield High and Monroe High, so results are not representative of the district as a whole. Twenty percent of respondents currently plan to attend MCCC after high school. Of students not already planning to attend or unsure about attending MCCC, 26% indicated they would attend MCCC if it had a sports program, 44% were unsure, and the remaining 30% still would not attend. An additional 14% said they would attend MCCC if athletic scholarships were offered. Forty-five percent of total respondents were amenable to paying a \$25 activity fee per semester to help fund a sports program, 34% were neutral, and 21% were opposed to the fee. Women's volleyball was the most popular sport that respondents said they would try out for, and men's basketball and women's volleyball were the biggest attendance attractors. Participants were largely unsure (36%) of how frequently they would attend athletic events; however, 20% said they would attend weekly, and 11%, never. Regarding sports not specifically presented in the survey, interest in football was mentioned the most frequently in the free response section.

1	I believe wrestling should be added to the list of sport events.
2	You should have athletics
3	You should really add a Baseball program.
4	I think it would be great for the school, and even better for the student.
5	I would worry more about how teachers treat students than sports.
6	Sports needs to be wide spread. It is an activity that is needed to keep more students going to school local or you force us to attend colleges out of town.
7	You need football that would be awesome to have a community team
8	I don't exactly care for sports except for hockey, golf, and baseball/softball. Those ones I'd most likely attend and/or participate in.
9	I think you should really do it, if you did there would be a lot more kids wanting to go there and I know that I would go there too so please consider it.
10	You should have cheerleading because I know a lot of people who love to cheer

20	i feel with Monroe being a school known for there football, it would be a wise choice to offer football as one of the athletics at MCCC
21	i would be strongly interested in football
22	Please bring the athletics to the school. Give students the opportunity to continue in their sports they enjoyed in high school. Thank you for the consideration of bringing sports to MCCC.
23	So many other Community Colleges offer athletics and MCCC did before, I think it is a great idea and ABOUT time!
24	My parents would gladly pay \$25. They are used to paying \$150 per sport. At a colelge level I would think they would be more than happy to pay \$1000 so that I would stay at home go to MCCC and still be able to play football. It would save them tons of money. thousands...
25	You lose alot of kids by not having sports
