My health continues very good indeed
We have had very pleasant weather and
warm until a few days back. I would
like to have you just see how comfortably
the men are situated here. They are living
in large log houses with big fire places
in them, each Co. has its house. They are
built to frame three sides of a square
opening to the South and all open to
the inside of the square. The Co. houses
occupy two hundred ft. in length and
are 16 ft. wide. Give my best respects to
Frank Barber and tell him that I would
like much to hear from him as I have
written him twice and received no
answer give my love to all who write.
I receiving plenty for myself.

Your affectionate,

L. F. N. Co C

7th M. I.
