much like one times it is report
grap broke in the north it is
unsteady enough I should like to
be there in the spring coming but not
at present if you can give me a letter
with a depth of knowledge that all the
from father last week and he said
that the snow laid about 18 inches
deep behind his house much differ
from our phonant she only one
slag days to have appear there, that is
a boat for six or eight if i write
now how long I had got to stay here
I would like it not to I tell about they
may take up to mercer but you
must write often to me and direct
The same and they will follow us
if we have here I dont think that
this will lie here our Capt
has been to washington to day for the
so we could get our houses and to move
but they thinks that we must mind
