The road from New Mexico we shall be all brought together sometime this winter. We have had a rather busy time since we left Pilot and are making pretty good time on the road and going on guard every other day since we have been here. General Davies commands this district. He is one of governor gamble's conservative chaps, and we think not very friendly to loyal volunteers. As he gives us four times as much duty as he does the malcontents but we do not expect to stay here long so we can afford to laugh at that. There is no news going now days and I do not know how to fill up this sheet without that useful commodity.
