Thursday, April 29th. Camp No. 45. Have marched 15 miles. Passed little grasshopper about 5 miles from Rome. Passed through a little place called Lancaster and camped 4 miles south-east from the town on a little creek about a mile from the road. The country is well settled. The houses are remarkably good for a new country. I think it might be possible for a farmer to make a living at farming here.

Wednesday, April 28th. Camp No. 46. Marched 16 miles and camped on a clean bottom. The best sights in the west are seen in sight of Atchison. The land here is very broken. We passed a swampy little place called Mount Pleasant about a mile and a half from here. We are camped on a stream called the Stranger.

Thursday, April 29th. Camp No. 47. At Leavensworth, marched 15 miles and arrived at our destination. 1st U.S. Battery come in same time.
