Welcome to
MONROE COUNTY COMMUNITY COLLEGE

At MCCC, students from across the region are discovering that for a unique learning culture of shared accomplishments, their best choice is right here.

Ask any student... or faculty or staff member, and you’ll learn the many benefits of an MCCC education:

- One-on-one personal involvement and mentorship bring real meaning to the idea of “small class sizes.” You’ll enjoy learning relationships with instructors and counselors who are passionately committed to your success.

- It’s accessible. MCCC is an affordable, convenient “stepping stone” to a four-year degree or an exciting position in the workplace.

- MCCC is a not a research institution, but a learning institution where instructors are focused on providing you with the practical experience needed for success in the workplace and in life.

- An MCCC education has lifetime value. Our unique blend of affordability, practical life skills and mentoring relationships provide lasting value and return-on-investment that will benefit you long after your studies are complete.

As an academic and a cultural resource, we strive to build character, nurture personal and professional growth and make work and life more rewarding — not just for students and graduates, but for our community as well.

Learning Relationships

At MCCC, you’re not just another name and number on a class roster.

And, to our instructors, you’re more than just a face in a crowded lecture hall. Through our small class sizes and committed faculty and staff, we provide the personal attention that makes a real difference.

Ask around and many students will tell you themselves — faculty and staff members at MCCC are invested in students’ lives and focused on creating positive outcomes.

We strive to develop close working relationships with students, ensuring that we maximize your strengths and encourage you to reach your potential.

Plus, MCCC provides students with real opportunities for hands-on instruction and individual student mentorship. This expertise is consistent across all areas of study. Classes and labs are taught by qualified, experienced faculty members, not graduate students.

At MCCC it’s all about Enriching Lives
Higher Education
That’s Accessible

From the lowest tuition and convenient locations to counselors, faculty, staff and services that are there when you need them, MCCC strives to make higher education accessible to everyone.

Lowest Tuition in Southeast Michigan and Northwest Ohio
You’ll find the tuition at MCCC to be the lowest in Southeast Michigan and Northwest Ohio, even for students who don’t live in Monroe County. And, for Monroe County residents, MCCC’s tuition is about one-fourth that of most four-year public colleges and universities.

Abundant Financial Aid and Scholarship Opportunities
Additionally, more than 50 percent of all MCCC Students receive some form of financial aid from federal and state grants, loans and work-study programs. And, an ever-increasing number of students take advantage of scholarship opportunities. Talk to a representative in the Financial Aid Office about financial aid and scholarship opportunities that might be available to you.

Locations in Monroe and Temperance
With two convenient locations, Monroe County Community College is within easy reach for students throughout Southeast Michigan and Northwest Ohio. In addition to the full range of courses offered at our Main Campus on Raisinville Road, students also have the option of taking advantage of the many class offerings at MCCC’s Whitman Center on Lewis Avenue near Siena Road in Temperance.

Career Counseling
Some students choose MCCC for the quality educational programs that will help them prepare for a successful transfer to a four-year college or university. Others choose MCCC for the associate’s degree and certificate programs that will prepare them immediately for employment in today’s workplace.

MCCC’s professional counseling staff and our resource-rich Career Information Center offer a wide array of career-planning advice, including detailed information regarding particular career opportunities, transfer guides for other colleges and universities and assistance in creating a resume or developing career goals.

Help with Writing Skills
Our Writing Fellows program provides assistance for every stage of the writing process. Even our distance learners can take advantage of this service using our high-tech/high-touch Eliyar program.

“Wired” Library
MCCC’s library features state-of-the-art computer labs, nearly 50,000 volumes of printed resource materials, online research capabilities and personal assistance in an inviting and quiet study area. And, because we’re truly wired, our library lets students conveniently access database information from the comfort of their own homes using any Internet-enabled computer.

Convenient Computer Access
MCCC understands that today’s students require computer access for conducting research and composing papers. That’s why MCCC maintains more than 140 computers – with the latest software – across six different open labs at both of its locations.

Practical Knowledge and Experience to Reach Your Goals

Monroe County Community College is a learning institution where the focus is on providing the knowledge, information and experiences that will help our students reach their career goals.

We understand that landing a top job requires the proper knowledge and skills, plus the ability to learn new ones. That’s why we’ve designed our degree programs to incorporate hands-on instructional activities in a learning environment that encourages participation and personal growth.

Additionally, MCCC has established active partnerships within the region’s business community. We’ve cultivated a network of business contacts that provide valuable input as we design and refine our programs. This network enables us to give our graduates the best advantages when entering the job market. So, whatever your interest — be it computer science, mechanical design, nursing, culinary arts or any of our other career programs — you’ll find that the programs within our curriculum are designed to prepare you for a successful career path.

Get a Head Start on a Four-year Degree

— For a lot less —

For many students who plan to transfer to a four-year college or university, the high quality and affordability of an MCCC education serves as a positive stepping stone to completing a baccalaureate degree at a wide range of four-year institutions across the country.

And, because MCCC has the lowest tuition in Southeast Michigan and Northwest Ohio, those who begin their four-year degree at MCCC can save a significant amount of money.

Our counselors and faculty advisors will help you select the proper courses for your desired area of study and the four-year institution where you intend to obtain your bachelor’s degree.

To help accomplish your goals, MCCC maintains numerous baccalaureate degree completion agreements with four-year universities in our area. In addition, Siena Heights University offers a variety of its bachelor’s degree programs on the MCCC campus, including business administration, accounting, applied science, psychology and general studies. Eastern Michigan University offers course work at MCCC and next door at the Monroe County Intermediate School District Building, including its bachelor of science in nursing program (R.N. to B.S.N. completion) as well as course work in its teacher certification segue program.

Before embarking on the pursuit of any degree, we recommend that our students discuss specific program and course details with a counselor in our Office of Admissions. Further transfer information can be found at www.monroeccc.edu.

Enrichment Activities Outside the Classroom

MCCC students get the chance to exercise more than just their mind.

That’s because academics aren’t the only enrichment opportunities that await our students — they can exercise their body and spirit as well. Beyond the classroom, education can be found through our modern fitness center, student organizations and activities and a full lineup of cultural events, many of which are held at the LoZBoy Center. The LoZBoy Center opened in 2004 and houses the 550-seat, state-of-the-art Meyer Theater, which is surrounded by a rehearsal hall, dressing and makeup rooms and a scene shop.
