PRODUCT AND PROCESS TECHNOLOGY

Applied Science and Engineering Technology Division 2019-2020

The associate of applied science degree with specialization in product and process technology is designed to prepare students for careers in high-performance manufacturing of consumer goods. This degree will provide students with a foundation in manufacturing design, precision machining and tooling, and complex computer-aided design and computer-aided manufacturing (CAD/CAM). Students will learn tooling process and equipment requirements, design, analysis and process planning and also receive instruction in manual and computer-numerical-control (CNC) mills, machining centers, lathes, grinders, robotic integration and support processes, procedures and practices. This program is focused on beginner, intermediate and advanced levels of the product and process. Students will learn "soft" skills in problem solving, teamwork and communication. Students can graduate with real world skills to be productive in CNC and CAD CAM.

NOTE: MCCC is a FANUC Certified Education Training Center.

Career Opportunities
Graduates of this program will be prepared to pursue careers in the product and process technology field such as:

- Automation and control technician analyst
- CAD/CAM technician
- CNC programmer/operator
- CNC set-up technician
- Engineering technician
- Industrial engineer production team leader
- Machine technician
- Machinist

- Manufacturing technician
- Process planner lab technician
- Sales and service engineer

Note: The following codes identify courses that satisfy MCCC’s General Education Requirements:
(C1) GE Natural Sciences Competency
(C2) GE Mathematics Competency
(C3) GE Writing Competency
(C4) GE Computer Literacy Competency
(C5) GE Human Experience Competency
(C6) GE Social Systems Competency

See the General Education Requirements on the MCCC website for a list of courses that satisfy the General Education Learning Competencies.
Students interested in transfer are encouraged to seek the assistance of a selected for transfer depending on the student's choice of transfer institution. Interested in transferring to a four-year institution. Other MATH courses may be recommended for students whose goal is to complete the associate of applied science degree and seek employment. MATH 157 (College Algebra) and MATH 159 (Trigonometry and Analytical Geometry) are recommended for students whose goal is to complete the associate of applied science degree and seek employment. MATH 119* (Elementary Technical Mathematics) and MATH 124 (Technical Mathematics II) are required.* Program requires at least 6 credit hours of MATH. MATH 119* (Elementary Technical Mathematics) and MATH 124 (Technical Mathematics II) are required for students whose goal is to complete the associate of applied science degree and seek employment. MATH 157 (College Algebra) and MATH 159 (Trigonometry and Analytical Geometry) are recommended for students interested in transferring to a four-year institution. Other MATH courses may be selected for transfer depending on the student's choice of transfer institution. Students interested in transfer are encouraged to seek the assistance of a faculty advisor or admissions counselor.

Monroe County Community College is an equal opportunity institution and adheres to a policy that no qualified person shall be discriminated against because of race, color, religion, national origin or ancestry, age, gender, marital status, disability, genetic information, sexual orientation, gender identity/expression, height, weight or veteran's status in any program or activity for which it is responsible. If you have a disability and need special accommodations, please contact the Learning Assistance Laboratory at least 10 business days prior to the first class session to schedule an appointment to begin the accommodation process. The LAL phone number is 734.384.4167.

Monroe County Community College is accredited by the Higher Learning Commission.
