

SPECIFICATIONS:

(1) Welding Co-operative Robot (Cobot) Cart

Minimum Specs:

- Robot Arm Type: 6 Axis Collaborative COBOT (Fanuc)
- Robot Arm Reach: 55" (approximately)
- Payload: 20lbs (approximately)
- Welding Machine Type: Dedicated Robotic Power Supply up to 500 Amps
- Welder Output: DC Constant Voltage/Constant Current
- Power Available: up to 480v 3 phase
- Warranty: 3-5 Years (preferred)

Must Include:

- Cart w/Built-In Tooling Table & Heavy-Duty Casters
- Robot w/Tablet-Based Teach Pendant
- Robotic Welding Power Source
- Wire Feeder
- Air-Cooled Welding Torch
- Installation Provided
- Training Provided
- Certification Program
- Educational Resources*
- Technical Support
- Shipping and Freight

*Must include industrial simulation software for offline programming capabilities, as well as hands-on student & instructor curriculum.
