## PROCEDURE FOR REQUESTING ACCOMMODATION

- Under the Americans with Disabilities Act, the Americans with Disabilities Amendments Act (2008) and the Rehabilitation Act of 1973, an individual with a disability includes any person who has a physical, learning, or psychological impairment which substantially limits one or more major life activities.
- The student should schedule an appointment with a disability services coordinator. Eligibility for services will be determined by information gathered from the student interview and documentation provided.
- Documentation and information should be provided during the initial appointment such as accommodation history; educational or medical records; reports and assessments created by health care providers, school psychologists, teachers or an educational system. Examples of documentation may include a psychological evaluation, 504 Plan, IEP (Individual Education Plan), SOP (Summary of Performance).
- The student interview will focus on how the condition impacts the student in the academic environment. This interactive process will enable the coordinator to determine how the disability is connected to a barrier and if an accommodation would provide access.
- Information gathered during the initial interview will be reviewed by a disability services coordinator. If recommendations are included in the documentation, they will be considered together with the total assessment, the specific program and class, and information provided by the student during the interview. Accommodations will be determined on an individual basis.
- Within 10 business days of the initial appointment, the student will be notified of the outcome of their request by e-mail or in-person.

- Students have the right to seek accommodation reconsideration within 10 business days of an accommodation request being denied. A request for reconsideration form should be completed and returned to the Disability Services Office. The form is located on the Disability Services web page. Students will receive a determination from the director of student success within 10 business days of receiving the request. If the student does not agree with the decision, they can follow the procedure for filing an ADA or section 504 complaint located within this brochure.
- All accommodations are provided free of charge. Cooperative agreements through a third party (e.g. Michigan Rehabilitation Services, Bureau of Services for Blind Persons) will be considered.
- Prior to each semester, students need to submit a semester request for accommodation using the Accommodate Management System.
- 10 Non-credit students seeking accommodation must contact a disability services coordinator each time they register for a class.
- Student confidentiality will be observed and no documentation or information will be released without the student's written consent.

#### **STUDENT RESPONSIBILITIES**

- Notify or leave a message with Disability Services if student will not be attending class due to a disabilityrelated absence by calling (734) 384-4167 or sending an email to lal@monroeccc.edu.
- Use the same procedure to notify Disability Services if student has difficulty with any accommodation (e.g. note taker, scribe, interpreter).
- Follow test accommodation procedures as indicated by Disability Services guidelines.

Reasonable attempts will made to accommodate individual needs. However, this is not a guarantee that services will be provided exactly as requested.
