

Precision Machining Technology

Program Description

The Precision Machining industry is a diverse, high-tech, and fast-paced industry made possible by highly skilled individuals and machinery. If you are mechanically inclined, like to work hands-on, and enjoy troubleshooting and problem-solving, this program is for you.

The program covers precision instruments and measurement, equipment setups and operations of machining processes. Lab projects and activities provide students the opportunity to apply and build upon the many skills learned. The program is located offsite on the Monroe County Community College Campus.

Opportunities

- Use computers to design parts, program and operate high-tech computer-controlled manufacturing equipment
- Discover how all kinds of things are made from design to production
- Explore careers in advanced manufacturing
- Learn engineering principles and design software

Industry Credentials

- Fanuc America's CNC Basic Operation, Programming and Setup

Registration

Students enroll through High School Counselor and must meet the following Requirements:

- Seniors only
- Good Attendance
- Have reliable transportation
- Expressed interest in Manufacturing, Professional Trades or STEM Career Pathways
- Ready for college level work evidenced by
 - Counselor letter of recommendation
 - Teacher letter of recommendation

MCCC Course Sequence

Dual Enrollment 12 College Credits Possible

Fall Semester

- MDTC 109 Mechanical Blueprint Reading (2 CHs)
- MECH 103 Machining Basics and CNC (4 CHs)

Winter Semester

- MECH 104 CNC II (3 CHs)
- MECH 201 CAD/CAM Milling I (3CHs)

Course Information

- Monday -Thursday 12:30-2:30 at MCCC
- Program follows the college semester timeline
