Elementary Japanese

This 14-week course is an introduction to Japanese language and culture, and is designed for beginners who have little or no experience learning Japanese. The goal of this course is to develop four basic skills: speaking, listening, reading and writing in model Japanese with a focus on the most widely used Japanese syllabic writing system (Hiragana), as well as greetings and phrases used in everyday communication and contemporary Japanese cultures. The course includes audio and video clips to demonstrate meaningful context and natural language use. Upon successful completion of this course, students will be able to carry on casual daily conversations such as self-introduction, greetings, apologizing, expressing likes and dislikes, and making requests, as well as develop the ability to read and write short, simple compositions in Japanese. Required textbook: Elementary Japanese Volume One by Yoko Hasegawa. 🛄 CEUs: 2.8

Speed Spanish (ONLINE)

Imagine yourself speaking, reading and writing Spanish. Now you can with Speed Spanish. This course is designed for anyone who wants to learn Spanish pronto. You will learn six easy recipes for gluing Spanish words together to form sentences. In no time at all, you will be able to go into any Spanish-speaking situation and converse in Spanish. ¡Qué Bueno! There are no prerequisites to take this course; however, you must have email capabilities and access to a personal email account. The instructional materials required for this course are included in enrollment and will be available online. CEUs: 2.4 [

WSPAN 701 \$115 Online Start any time. Additional levels and topics of Spanish are available.

Discover Sign Language (Online Self-paced)

Discover Sign Language teaches you how to sign basic phrases and expand to complete sentences and see how to put it all together, so you can introduce yourself and start a conversation. Along the way you will learn signs for colors, numbers, where you live, family, and the activities you like to do and even the ones you don't. Throughout the course you will learn by watching videos that demonstrate how to make the signs and how to incorporate facial expressions to communicate in this beautiful language. This course is taught using the best practices of the industry with a minimum of audio support. Throughout, you will be immersed in silence, so you will gain an understanding of the perspective of deaf people and sign

language. You will also gain an introduction to the world of the deaf culture and explore topics such as lipreading, baby signs and the career of interpreting. By the end of the course, when you meet a deaf person, you will be ready to sign! There are no prerequisites to take this course and the instructional materials required for this course are included in enrollment and will be available online. Hardware Requirements: This course can be taken on either a PC, Mac or Chromebook. Software Requirements: PC: Windows 8 or later, Mac: macOS 10.6 or later. Browser: The latest version of Google Chrome or Mozilla Firefox are preferred, Microsoft Edge and Safari are also compatible, Adobe Acrobat Reader. Software must be installed and fully operational before the course begins. Other: Email capabilities and access to a personal email account. CEUs: 2.4

Christmas Evergreen Potpourri

This is a hands-on project making a barrel of potpourri that will fill your home with the beautiful aroma of Christmas. We will use fresh evergreens, red winter berries, dehydrated fruits, cinnamon sticks, spices, herbs, etc. We will add an herbal item throughout the mix that saves the aroma for years as well as an essential organic Christmas scent oil, not the sicky-sweet smells that are in "fragrant" oils. The recipe is one of the instructor's favorites and everyone will take home a large bag. She will also give each student a folder of her favorite potpourri recipes that she considers her treasures that you can use for years in your home to give as gifts. You will learn where to find all necessary, easy ingredients (outdoors, garden, kitchen, grocers, plus the names of her own suppliers). Please bring snug-fitting medical exam gloves.

About the Instructor -**Barbara Mauter**

Barbara Mauter is an adjunct instructor with over 20 years college teaching experience. She has taught and presented various workshops for the University of Toledo, Bowling Green State University, Monroe County Community College and other venues. She is also a Master Online Instructor. Barbara completed ALC (Active Learning Classroom) Training and has been incorporating new ideas into her workshops. Additionally, she attended a CDI (Course Design Institute), expanding her knowledge of course design. Her interests center around reading, thinking, how our minds work, and Native American culture and history. She is known for her critical thinking class activities.

FREE

Math Boot Camp

MCCC is offering this non-credit Math Boot Camp for students and community members who need to review and improve their math skills. Basic arithmetic, such as working with whole numbers and integers, fractions, decimals and percentages, will be covered. Learning will further be enhanced through meaningful, real-world applications and problem solving. These applications will be fun and relatable to real life. We can help lessen your anxiety about math and build confidence in your abilities. The last week of camp will be devoted to review and preparation for the Accuplacer test. In addition, you'll be exposed to STEM (Science, Engineering, Technology and Math) programs of study and careers. CEUs: 2.2

Who should take the course?

- Students who score below the minimum Accuplacer test score required for placement into MATH 092 (Begining Algebra) or Math 105 (Essential Math for College Students)
- Students who need to brush up on basic math skills to retake the Accuplacer test
- Anyone in the community who wants to improve their math skills

Introduction to Drones

Learn how to fly a drone for fun! This beginner's course is designed with the drone enthusiasts in mind and includes everything you need to get started with drones. We will cover basic laws and safety, as well as flight controls and where you can fly legally. The instructor will teach you how to download photos and videos from the drone. You will need to bring a smart phone, as you'll use it to control your drone (unless you buy a remote separately). If you bring your own laptop, the instructor will show you how to transfer the photos/videos as well. Students must sign a liability waiver prior to class. This is a hands-on flight training course, and a drone that you will keep is included in the cost. CEUs: 1.3
