

# STUDENT RETURN TO CAMPUS GUIDELINES

## PRACTICE SOCIAL DISTANCING

- Stay 6 feet apart when possible and do not congregate.
- Limit face-to-face interaction as much as possible.
- Limit group gatherings and observe social distancing in the hallways and atrium.
- Abide by capacity limitations determined by the College in classrooms, labs, and meeting spaces.
- Keep in-person meetings minimal and consider remote options.

## WEAR FACIAL COVERING AND SHIELD

- Face masks/face coverings must be worn by all persons inside college facilities.
- Face shields are required in classrooms and labs when *direct* contact is unavoidable. In these cases, shields will be provided to faculty and students. Per CDC guidelines, face shields should not be used as a substitute for face coverings. Instead, *shields are to be used in addition to face coverings* as an extra layer of protection when direct contact is unavoidable and/or social distancing is not possible.

## FREQUENT HAND HYGIENE

- Wash hands frequently and use alcohol-based hand sanitizer when soap and water are not available.
- Avoid touching your face, eyes, and nose.
- Cover your mouth when coughing or sneezing.
- Do not share food or other items that are difficult to disinfect.

## GLOVES

- Some faculty may require students to wear gloves in the classroom and/or lab, depending on the nature of the class (e.g. working with *high-touch* equipment). Good hand hygiene should be completed *immediately* following glove removal.

## DISINFECTANT EQUIPMENT

- Clean and disinfect all equipment between uses.
- Disinfectant supplies are provided by the College. Students and faculty are encouraged to use them on any high-touch surfaces throughout the day, including on tables, chairs, and computer equipment and before and after class or lab meetings.
