Course Description/Purpose

This course is an operations-centered certification course which will provide culinary students with basic principles of sanitation for Foodservice. The course will include ways to apply these principles to practical situations, as well as methods of training and motivating employees to follow good sanitation practices. Students will study the laws and regulations related to safety, fire and sanitation and adhere to them in the Foodservice operation. Upon successful completion of this course, students may take the examination for an Applied Foodservice Sanitation Certificate, which meets or exceeds FDA recommendations on content for sanitation courses. This is the most universally recognized and accepted sanitation certification. Students may also receive the State of Michigan Sanitation Certificate.

This course is a required core course for students pursuing an AAS in Culinary Arts.

Program Outcomes Addressed by this Course:

Upon successful completion of this course, students should be able to meet the program outcomes listed below:

C. Demonstrate competence with food sanitation practices and how they apply to Federal Standards.
M. Demonstrate awareness and appreciation of current trends in the Foodservice industry.

Course Outcomes

All of the Course Outcomes for this course are designed to satisfy the Program Outcome listed above.
