MONROE COUNTY COMMUNITY COLLEGE

Course Information

Division	**Business Division**
Contact Hours	**45**
Total Credits	**3**

Prerequisites	**CIS130**

Course Description

This course provides skills and knowledge of digital video basics. Topics will include editing, transitions, audio, adding motion, and other multimedia components involving digital video. This course is applicable to web designers, graphic designers, video production artists, or home digital video camera users.

Course Outcomes

In order to evidence success in this course, students will be able to:

1. Identify and recognize terminology, techniques, and features related to digital video editing.

2. Identify and recognize steps involved in editing digital video.

3. Demonstrate and practice their ability to plan, design, create, modify, and save quality digital videos.
