MONROE COUNTY COMMUNITY COLLEGE

CIS284 – Advanced Photoshop Graphics

Course Information

Division	**Business Division**
Contact Hours	**45**
Total Credits	**3**

Prerequisites   **CIS178 and CIS184**

Course Description

This course covers advanced tools, features, and techniques of the image editing software Adobe Photoshop.

Course Outcomes

In order to evidence success in this course, students will be able to:

1. Identify advanced Photoshop techniques and features

2. Identify the best tools, techniques, and/or features of Photoshop to be used in association with various design projects involving complex graphic design elements

3. Demonstrate ability to use creative thought processes and decision making processes in making graphic design choices using Photoshop to create complex professional-level artwork

4. Demonstrate ability to plan, design, create, save, modify and enhance graphic design elements and projects using Photoshop to create a professional-level design that meets the desired outcome for the intended target audience

5. Demonstrate ability to consistently meet deadlines and work independently and/or as part of a team to create professional quality work using Photoshop

6. Demonstrate consistent adherence to ethics, legal guidelines and copyright laws

7. Evaluate and critique designs (including own designs) created in Photoshop using oral and/or written communication skills

8. Produce a body of advanced graphic design work in Photoshop to add to a portfolio for entry level employment or transfer to a four-year college or university in the field of graphic design or related field
