RDG 090 and ENGL 090 qualifying scores on ACT or COMPASS tests

Course Description

This course is designed to prepare an individual to fulfill the role of direct caregiver/ nursing aide. The course emphasizes the skills and behaviors that are significant to employers of nurse aides, including Cardiopulmonary Resuscitation. This course includes classroom activities, skills practice time in the laboratory, and supervised clinical practice at a long-term care facility. Written assignments and tests (both written and performance testing) are a part of this course. Upon completion of this course, students will be eligible to take the clinical and written exams required for certification as a nurse's aide.

Course Outcomes

In order to evidence success in this course, students will be able to:

1. Describe emergency procedures to be taken in the event of:
 - a. fire
 - b. natural disasters
 - c. power failure
 - d. choking
 - e. heart or lung function cessation
2. Perform basic nursing skills safely and meeting legal and ethical considerations:
 - a. personal care skills such as bathing, ADL activities
 - b. care of the environment
