Course Description

Theater Workshop offers an opportunity to study the basics of theater production with special emphasis on the practical crafts of theater (acting, directing, set design and construction, lighting, sound, costuming and management activities). Through practical experience with particular productions and related possible projects, the relationships among some of these elements may be studied. This course enables the student who has the requisite background in theater to focus upon individual theater projects and to learn more about the varieties of theatrical experience and the processes of theatrical production.

Course Outcomes

In order to evidence success in this course, students will master

1. the basic vocabulary of the course outline.
2. the essential vocabulary of a particular theatrical area.
3. the essential concepts in a particular theatrical area.
4. particular plays.

And will demonstrate

5. the ability to discuss and evaluate how various theatrical elements described in the above section apply to real productions.
6. practical knowledge of vocabulary in the field by working on productions and theater-related projects.
