

## On your Chromebook:

1. Click the Wi-Fi icon in the lower right corner of the desktop/taskbar.
2. Open the dropdown menu next to Select a network.
  - o Choose "monroeccc" network.
3. Settings are as follows:

Join Wi-Fi network

SSID  
monroeccc

Security  
EAP

EAP method  
PEAP

EAP Phase 2 authentication  
MSCHAPv2

Server CA certificate  
Do Not Check

Identity  
first part of college email

Password  
same as college email

Anonymous Identity  
same as Identity

Cancel Connect

- o SSID: monroeccc (will already be in the field)
- o Security: EAP (may already be in the field)
- o EAP method: PEAP
- o Phase 2 authentication: MSCHAPv2
- o Server CA certificate: Do Not Check

YOU may or may not have some fields like these three below if so, leave them blank.

- o Subject match: leave blank
- o Subject alternative name match: leave blank
- o Domain suffix match: leave blank
- o Identity: first part of college email (username@my.monroeccc.edu)
- o Password: use your college email password
- o Anonymous identity: same as Identity
- o Click **Connect**

If none of this works, you may need to disconnect/forget the network and try again.

- Go to your Wi-Fi settings.
- Select the Network, more and Forget/Disconnect.
- Try connecting again.

**Note:** Whenever you change your PASSWORD, you MUST change it on ALL devices.

**FAILURE to do so** will result in too many logins attempts and lock you out of your account.
