

# How to Connect to the monroeccc Wireless Network for iPod Touch or iPhone or iPad iOS 7.x

1. Press the **Home** button on the device and then tap the **Settings** icon.

2. Tap **Wi-Fi**.

3. If the Wi-Fi is not enabled, tap the **Wi-Fi OFF** button to enable (turn on).

4. Tap **monroeccc** from the list of networks.

5. Enter your **user name** and **password** to login to **monroeccc**, if you are a student/employee.

Enter **User Name**: mcccguest **PW**: guestmccc if you are a guest user.

6. You will be prompted to accept a certificate. This certificate is provided for encryption/authentication purposes and is safe. Tap **Accept**.

7. If the credentials you entered are correct and you accepted the certificate, **monroeccc** should be checked and a **Wi-Fi signal** icon will show in the notification bar.

You should now be connected to the monroeccc wireless network.

**OPEN a browser put in an address and accept the acceptable use policy you will immediately go to the address you typed in e.g.: msn**
