One Book, One Community of Monroe County is pleased to offer MCCC students and faculty the opportunity to meet Dr. Mona Hanna-Attisha, author of *What the Eyes Don't See*, at an informal Q & A session. She is currently an Associate Professor of Pediatrics and Human Development and a C.S. Mott Endowed Professor of Public Health at Michigan State University. As a teacher, Dr. Mona Hanna-Attisha looks forward to talking with students. Light refreshments will be available.

What the Eyes Don't See is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan were being exposed to lead in their tap water. Paced like a scientific thriller, *What the Eyes Don't See* reveals how Hanna-Attisha discovered the lead levels in the water supply, and then battled her own government to expose that truth to the world. At the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family's activist roots inspired her pursuit of justice.

Doctor Mona will also be speaking this same evening at the MCCC La-Z-Boy Building, Meyer Theater at 7:00 p.m. **Please join us!**
