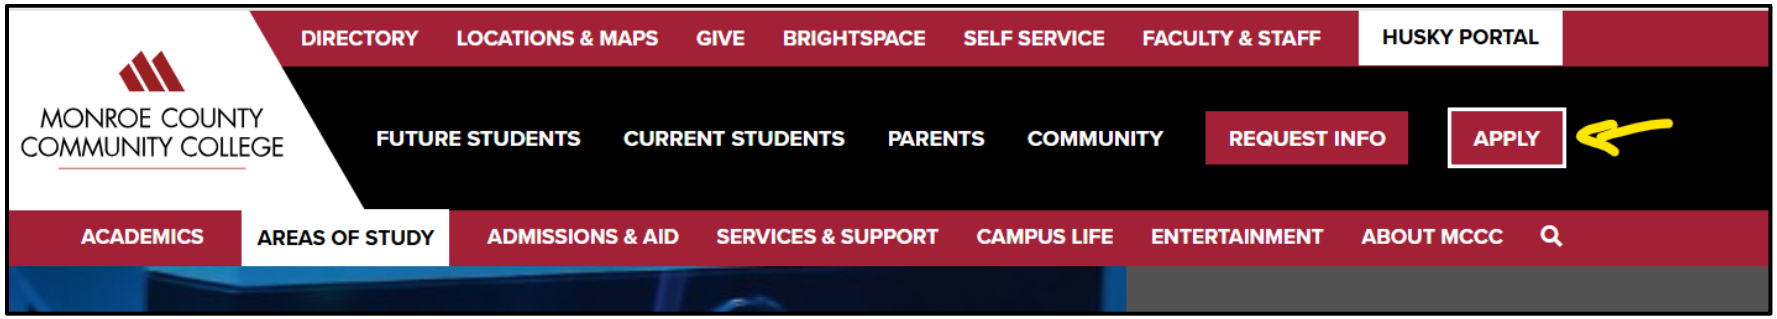
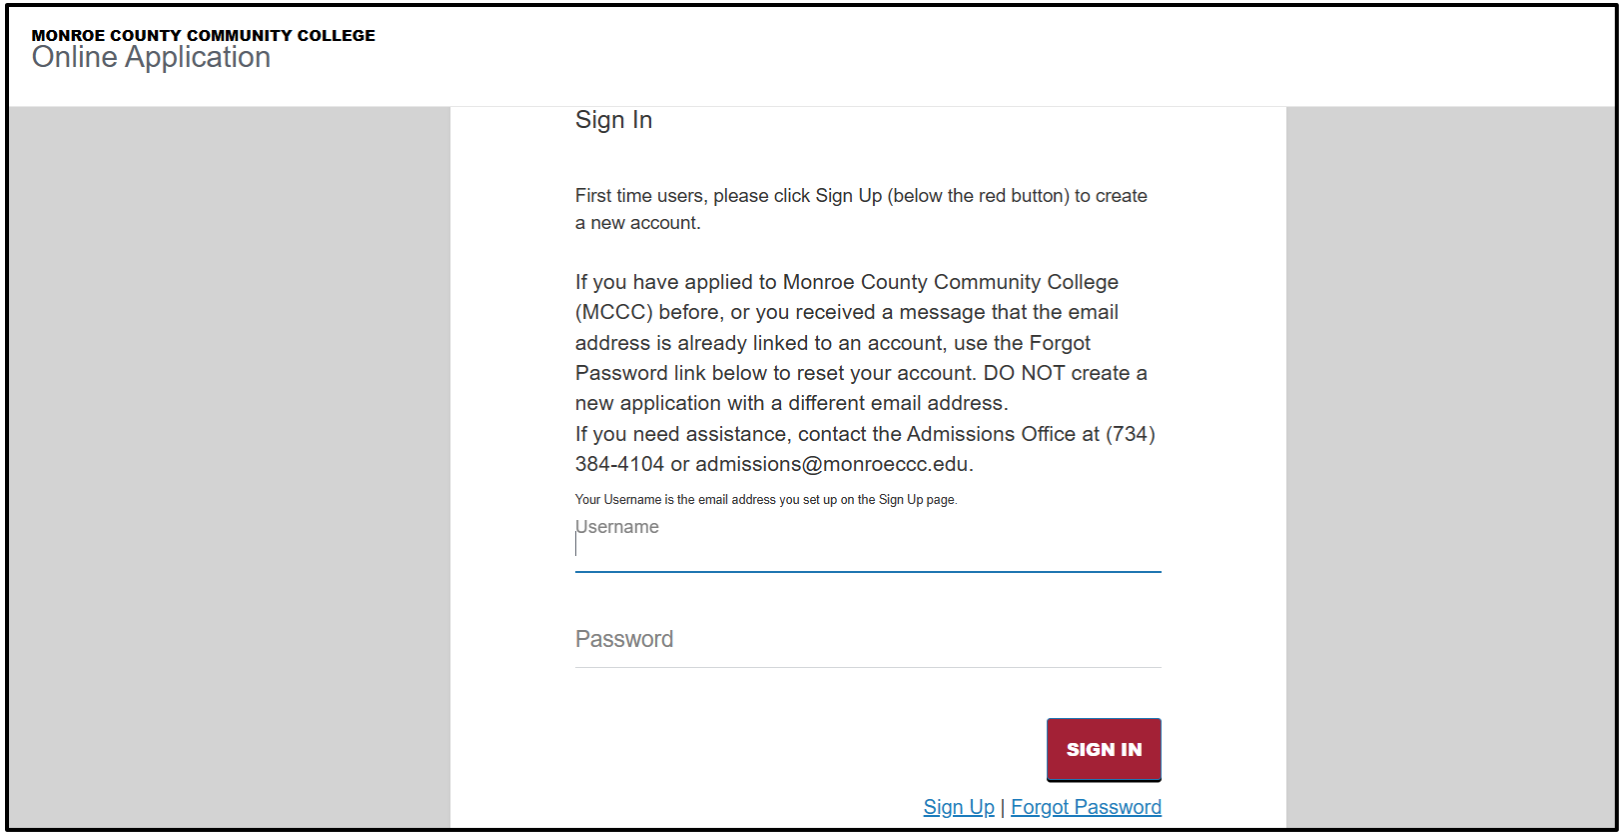
Radiography (RAD)	July 1	Last Monday in October

Instructions: How to Apply to Health Science Programs

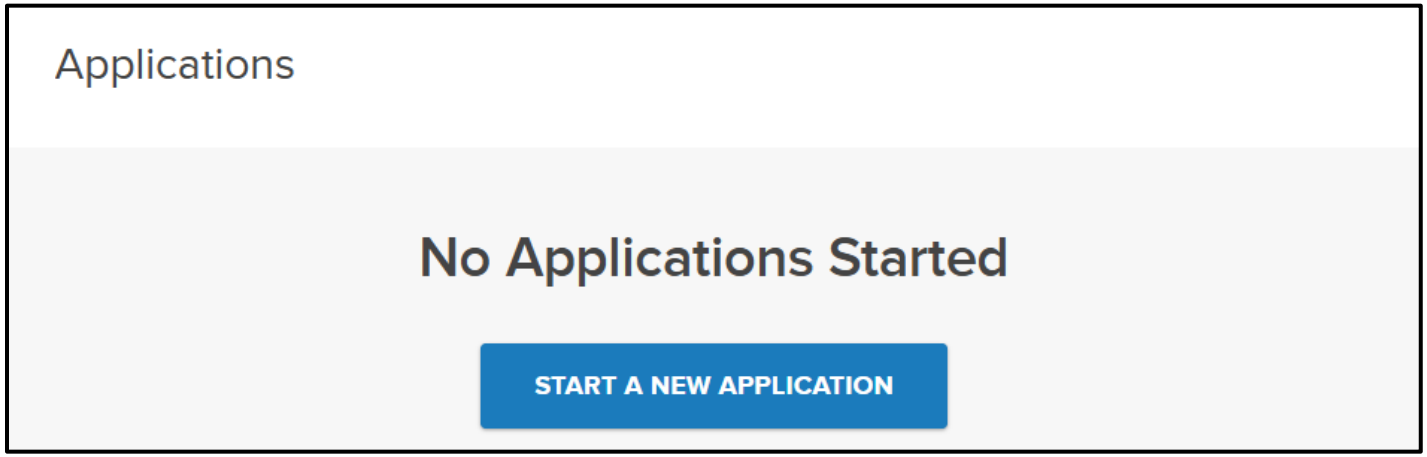
1) Navigate to the MCCC homepage. Select the "Apply" button in the top right corner of the website.



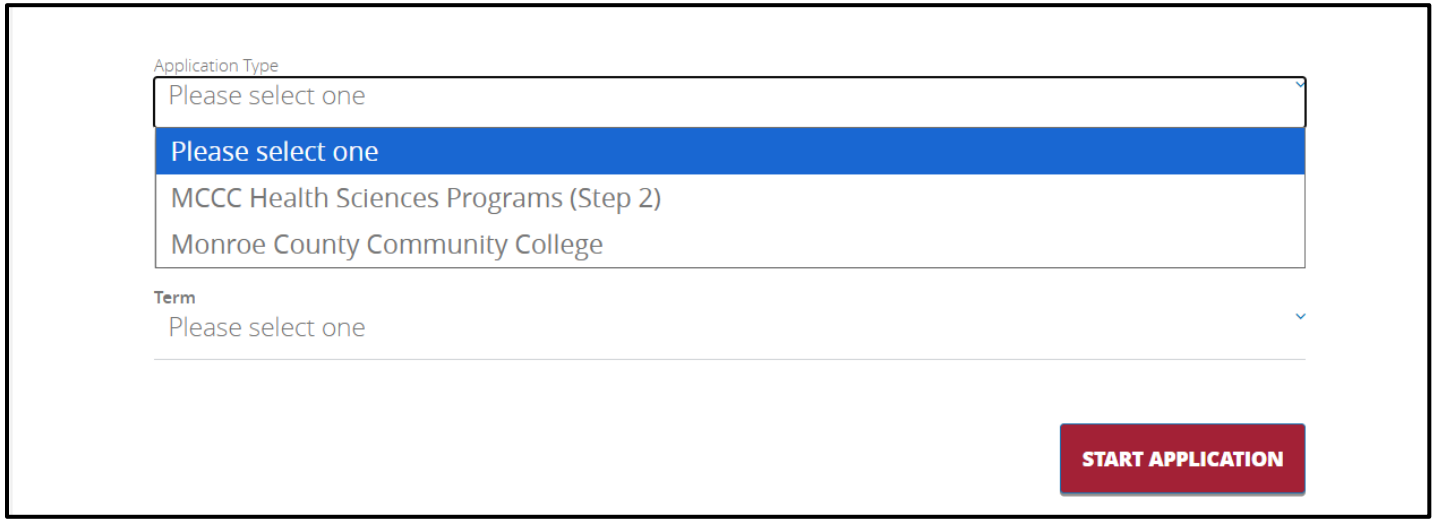
2) If you have already created an MCCC account, please sign-in by entering your username (college email address) and password then clicking "Sign In." If you created an account but don't remember your email, you can reset it by clicking "Forgot Password." If this is your first time applying to the college, click on the "Sign Up" link to create an account.



3) After you have signed in, click on “Start a New Application.”



4) If you have NOT applied to the college in the last two years, you must choose the application type “Monroe County Community College” to first apply to the college. Once accepted into MCCC, repeat the above steps but this time chose the “MCCC Health Sciences Programs (Step 2)” application type.



5) Finally, select the program of interest and enter the requested information. You may apply to more than one health sciences program, but you will need to create a separate application for each. *You may only apply to a program during their open application window. If you do not see the program you want in the drop-down menu, then please verify that the window to apply is open. If you still have questions, please contact the Health Sciences Division.*
