Narrative:

On July 8, 2020 R/o received an email from Jack Burns that indicated that a rotary glazier along with 2 packs of replacement sleeves had been stolen from the ceramics laboratory. When asked about the missing items Ms O'Halloran could not recall when she last saw the glazing sieve. She believes the items may have been taken sometime between March and June.

The report of the missing items was not made to R/o until the email from Jack Burns. There are no further investigative leads.
