Victim/Student:

On 10/05/16, student stopped by the security Office and advised that on 10/04/16 at approx. 3:20pm she had parked her above listed vehicle on the east side of parking lot #7 facing West Tech. She returned to the vehicle at approx. 5:pm and found that there was a dent in middle of the passenger's side door. Officer observed the dent and from the height of it would suspect a high truck bumper. Student advised that there had been a tall white truck in the space next to her when she parked. Due to the size of the dent, It is doubtful that the offending vehicle would show any damage to its bumper.

Nothing further at this time.
