

WE ARE

**WAYNE
STATE**

**WAYNE STATE
UNIVERSITY**
WARRIOR STRONG

A premier urban research university in the heart of

DETROIT

At Wayne State University, you're not just a student. You're a Warrior, prepared to experience college life in a one-of-a-kind setting. You'll blaze your own trail to thrive in and out of the classroom in our labs, studios, stages and beyond. With endless opportunities, your future here is limitless.

SEE WAYNE STATE FOR YOURSELF

wayne.edu/tour

Get to know our 200-acre campus when you take an in-person, Warrior-led walking tour — or customize your visit with a self-guided tour. You can even visit us from a distance with a virtual tour.

“I have personally helped with establishing a polling location on campus, expanding the vote by being the Campus Vote Project fellow for Wayne State, and allocated \$1,000 toward an urban garden within campus, behind St. Andrew’s Hall.”

Sailor Mayes
*Political science and
communications major*

DISCOVER WAYNE STATE

wayne.edu/campus

Adventure awaits you on our 200-acre campus – a slice of traditional college life in the heart of an exciting and vibrant city. Each year, nearly 25,000 students from 47 states and 79 countries choose to make Detroit their home.

Together, they make Wayne State Michigan's most diverse campus, taught by the most diverse faculty in the state, and we wear this distinction with pride. Whether you choose to spend the entirety of your education in the city or you venture out into the wider world through one of our study abroad programs in 20 countries, you'll graduate ready to take your place in the global workforce.

But college is about so much more than what you study, and where.
It's about the experience — and we have plenty for you to explore.

18 NCAA teams — and free admission for students to cheer them on to victory

Modern on-campus housing with room for 3,200 Warriors to live and learn

500+ student organizations, including fraternities and sororities

A new, 70,000-square-foot Wayne State Fieldhouse — home to Warrior basketball and the Motor City Cruise

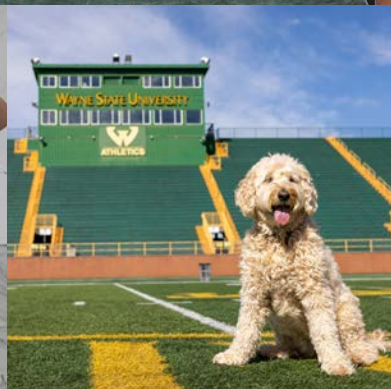

All-you-care-to-eat dining halls with vegetarian, vegan and pescatarian options daily

Service-learning opportunities to take you beyond campus and make you part of the community

“I’m currently a resident advisor and summer assistant on campus. I’m responsible for organizing residential events and academically and socially advising residents on campus, helping new residents assimilate to Wayne State.”

Marcus Cunningham
Nursing major

THIS CITY

is our classroom

wayne.edu/about/detroit

With Wayne State as a major contributor of talent to the city's startups and established businesses alike, Detroit is the place you'll want to be to make things happen — in fact, the city is one of *Time* magazine's 2022 "World's Greatest Places." Opportunities for internships and collaborations with industry leaders are waiting for you, right in our own backyard.

Our main campus is located in the city's Cultural Center, in Midtown, where students enjoy unparalleled access to the best in arts and entertainment, shopping, dining, and more. Whatever you're into — from museums and galleries to performance spaces, cultural events and professional sports — you're right in the middle of the action.

Get around easily when you bring your car to campus – or take advantage of free transportation for students through DDOT, SMART, the QLine and MoGo

Find your style when you shop small at local merchants or complete your look with name-brand pieces from Nike, Lululemon, Carhartt, Shinola and more

Make your voice heard with civic engagement opportunities throughout campus and beyond

“Involvement through Wayne State organizations and learning communities is what shaped me to be a leader. The positive climate of Detroit and WSU allows for students to thrive and serve their community.”

Heba Al-Hassan
Industrial systems engineering major

A MISSION OF RESEARCH

As Michigan's only urban research university, research is at the heart of our mission. Classified as a top-tier research institution, Wayne State invests more than \$244 million each year in this work and, through University Research Corridor partnerships, generates 95% of research in the state, supporting economic growth throughout Michigan.

Whether in the lab or on the stage, you'll work with our faculty, renowned for innovation and expertise in their fields, to make a measurable impact in our neighborhood and around the world. From medicine and mechanical engineering to graphic design and geology, hands-on experiences will take you out of the classroom and into the real world.

Wayne State will be the first college in the nation wired for connected and autonomous vehicles, using cutting-edge technology.

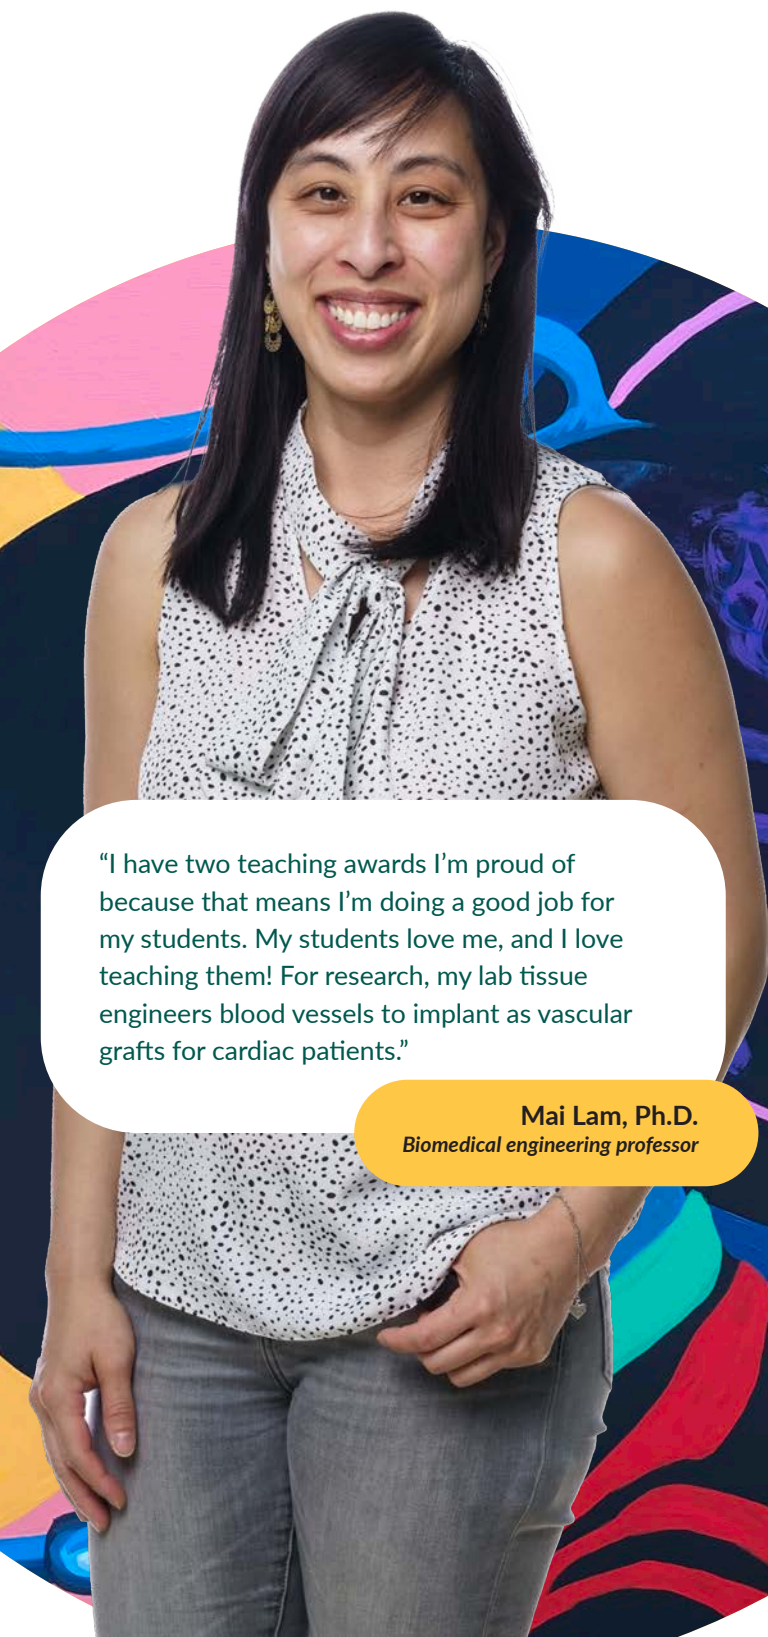

150+ patents have been awarded to WSU researchers since 2016.

The Integrative Biosciences Center leads the way in understanding and reducing health disparities facing Detroit and other urban areas.

Opening in 2023, the \$65 million Hilberry Gateway will offer three state-of-the-art theatres and education space.

"I have two teaching awards I'm proud of because that means I'm doing a good job for my students. My students love me, and I love teaching them! For research, my lab tissue engineers blood vessels to implant as vascular grafts for cardiac patients."

Mai Lam, Ph.D.
Biomedical engineering professor

'My Kinky Hair is Beautiful'

For Trejha Whitfield, research has become an avenue of personal growth and an opportunity to help empower Black women. A Black feminist scholar, she thrives in educating others on the nuanced ways Black women develop and adapt their cultural identities through their hairstyles. "My experiences — and those of every other Black woman — are significant to many communities in academia and beyond," she says. "My work also offers insights for a much larger audience seeking to understand the self-expressions and identities of themselves and others."

Talking about entrepreneurship

The intersections of urban sustainability and entrepreneurship are at the center of Allison Lucas' research, which examines the impact of how entrepreneurship is talked about and why it matters. "How we talk about entrepreneurship really does have the capacity to influence what type of investments are made and what type of resources are flowing through an ecosystem. It also has the ability to capture the attention of a really broad audience," she says. "It's a lot about where funding goes, but also more broadly, I think it's important there's awareness that different narratives exist, and even though you may be hearing one particular narrative, you may not be hearing the whole picture."

TOP OF THE CLASS

Many of Wayne State's undergraduate programs are nationally ranked, including our nursing program, which *U.S. News & World Report* puts in the top 7% nationwide, and our global supply chain management program, which is in the country's top 25, according to Gartner Research.

And when you're ready to take that next step and pursue a graduate degree, we have top 100 programs in disciplines like engineering, science, nursing, social work, medicine and law.

But the accolades don't end there.

Our 294,000 alumni include Pulitzer prize-winning journalists and winners or nominees for Grammy, Emmy, Tony, Golden Globe, Obie, Screen Actors Guild and Caldecott awards. Whether you look around the city or across the globe, you'll find Warriors making their mark as researchers, business leaders, engineers, social activists, entertainers, health care workers, athletes and more.

"Learning supply chain management from one of the top 25 schools in the country is a game-changer for my career. It has helped me strive for the best. Being a supply chain management student at Wayne State has prepared me for a world of opportunities and has connected me with wonderful people across the world."

Jermaine Green

Undecided students

Some students aren't ready to choose a major right away, so we offer exploratory tracks designed to help undecided first-year students discover their interests. These tracks are limited to 30 credit hours; you must declare a major upon completion, with your advisor there to help you every step of the way.

Pre-professional curricula

wayne.edu/advising/center

If your ultimate career goal requires graduate study, Wayne State can help you get there. These pre-professional programs are not majors (you still need one of those!), but are designed to put you in prime position for an advanced degree.

Pre-Dentistry³ Pre-Occupational
Pre-Law³ Therapy
Pre-Medicine³ Pre-Pathologists'
Pre-Pharmacy³ Assistant
Pre-Veterinary Pre-Physician
Medicine³ Assistant Studies

Graduate studies

gradschool.wayne.edu

Wayne State is acclaimed for its Graduate School, where students can earn certificates as well as master's, doctoral and professional degrees in hundreds of fields. Students with focused goals can begin graduate studies as an undergraduate by applying to programs that offer early admission to grad school, and save time and money – while increasing earning potential in their careers:

Accelerated Graduate Enrollment (AGRADE)
Law Start
Wayne Med-Direct

¹ Students cannot apply directly to this program. Additional application process required.

² Pre-professional curricula available.

³ Not a bachelor's degree program.

⁴ Audition/interview required.

⁵ Program application decisions are made after university admission.

⁶ Admission to Wayne State and the College of Nursing is required; limited space available in this program.

⁷ An associate degree or at least 24 transferable credits in these areas are required to be considered.

BECOME A WARRIOR

Wayne State sees each applicant as an individual. We'll review your application based on a variety of academic factors and any supporting documentation we may need in order to get to know you better.

1. START ONLINE

Apply at wayne.edu/apply, using the Wayne State application or the Common Application. The application fee is \$25.

2. SUBMIT YOUR TRANSCRIPT

Ask your high school or college to submit your transcript to WSU — this step must be completed by a school.

3. FILL IN YOUR DETAILS

If you have taken the SAT or ACT, you may submit your scores to WSU, or you may apply using our test-optional pathway by submitting the required supporting documents — visit go.wayne.edu/admissions-updates for more information.

If you have taken AP or IB courses or have already completed college classes while in high school, visit wayne.edu/transferecredit to learn how to apply these credits to your Wayne State record.

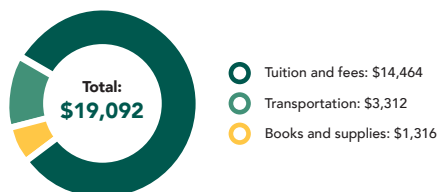

After you've submitted your application, start checking your application status portal at slate.wayne.edu/status to see your admission decision. Good news starts with: Welcome, Warrior!

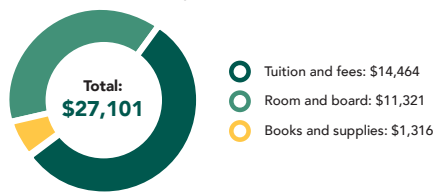

DO THE MATH

How much a Wayne State degree costs depends on a variety of factors, like how many credits you take and whether you live on campus. The charts below offer an idea of typical expenses, based on a first-year student taking 15 credits during both fall and winter semesters.

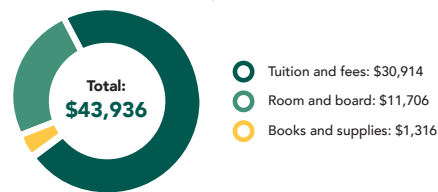

In-state: Commuting

In-state: Living on campus

Out-of-state: Living on campus

FUND YOUR FUTURE

wayne.edu/financial-aid
wayne.edu/scholarships

There's no better investment than the one you make in yourself. Research shows that college graduates earn about 75% more over a lifetime than those whose schooling ended with a high school diploma.

We have the lowest tuition among Michigan's research universities, but we know many students need additional financial support. Our commitment to you is to help make college affordable, putting a degree within your reach.

Wayne State provides nearly \$329 million annually in federal, state, institutional and private aid through scholarships, grants, loans and work-study programs — 46% of first-year undergraduate students had zero out-of-pocket expenses for their tuition, thanks to our tuition pledge programs.

The first step to financial assistance is visiting studentaid.gov/fafsa to complete the 2023-24 Free Application for Federal Student Aid (FAFSA), which is available beginning Oct. 1. File using the WSU federal code, 002329, as early as possible (and before our priority deadline of Dec. 1, 2022) for maximum aid consideration. Once you complete the FAFSA and are admitted to Wayne State, you will receive your award information, which may include scholarships, grants and federal loans.

Go to apps.reg.wayne.edu/tuition to calculate your personal tuition and fee estimate.

For important admissions and scholarship deadlines — and an admissions checklist — visit wayne.edu/admissions/first-year/deadlines.
